FULL PROGRAM IMPACT

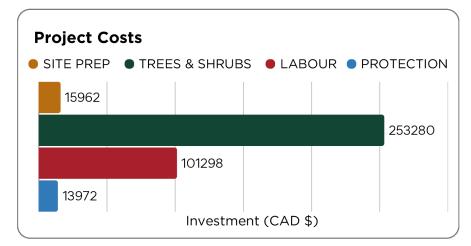

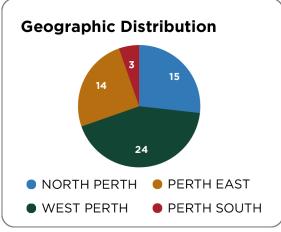

STEWARDSHIP PROGRAM RESULTS

The Stewardship Program supports stewardship projects and forest management plans across Perth County. The program invests in natural assets supports resiliency and climate mitigation efforts, as well as safeguarding the agricultural resources across the County.

Restoration Value 18,766 trees and shrubs will be planted 31 kilometers of new windbreaks will be planted 28 acres of marginal lands will be reforested 52,545 kilograms of carbon will be stored every year.

Species Diversity

51 plant species will be planted, creating cohesive ecosystems in restoration plots, and strategically diverse windbreaks.

99% of the trees and shrubs planted will be large stock, and 1% will be seedling stock.
